CORE MESSAGE

ਪਵਣੁ ਗੁਰੂ ਪਾਣੀ ਪਿਤਾ ਮਾਤਾ ਧਰਤਿ ਮਹਤੁ ॥

ਦਿਵਸੁ ਰਾਤਿ ਦੁਇ ਦਾਈ ਦਾਇਆ ਖੇਲੈ ਸਗਲ ਜਗਤੁ ॥

Wind is the teacher, Water is the father, and Earth is the great mother.

Day and night are the two kind nurturers, and (the world) plays under them.

Eco-club or green club at GNPS is a voluntary group which promotes the learning of students about their environment. It will empower students to take up meaningful environmental activities like celebrations of environmental days, both offline and online competitions which sensitize them about environmental issues and sustainable development.

The mission of GNPS behind the formation of this club is Going green and to maintain a sustainable green campus. To create a natural, holistic, student-centered learning environment that inspires our students to be creative, innovative, green leaders and eco-friendly decision makers.

Global warming is a serious threat to our planet, today. Keeping that in mind, we considered creating an eco club which would create awareness among the students at an early age. I would again like to extend my sincere gratitude to chairperson, teachers and the students who lent their support for this initiative. We intend to familiarize the students with concepts such as segregation of waste, importance of plants, conservation of resources and sustainable development. In the coming future, the eco club will organize various activities and competitions for the students.

THE PERSPECTIVE

The Eco Club of 'Guru Nanak Public School' is a students' movement to protect and cherish the environment. Started in 2022, the goal of the club is to connect with nature through positive learning experiences, which will create environmental awareness. Presently there are 120 members in the club. The Eco Club aims at spreading ecological sensitivity by training its members in handling local environmental problems. Various activities like planting a herbal garden, making bird houses and nesting boxes, plantation programs, sensitizing the students to minimize the use of plastic bags, will be organized in the next session. The club promotes conservation of water, through minimizing its use and rain water harvesting. The Club has been organizing awareness programs such as participating in Awareness rallies, signature campaign, etc., regarding various environmental issues. Children are educated about the reuse of waste material through waste material competition using eco-friendly material. We look forward to take this club to new heights and make our students a responsible citizens of the nation.

Regards!

OUR VISION

To be the best institution for protecting and creating environment awareness by educating the youth, offering programs and resources for the students.

INTRODUCTION

Eco club is a platform on which we get the knowledge about environment. The meaning of an eco club is a group that works to contribute in improving environmental conditions. It offer programs and activities to encourage others to reduce pollution, plant trees, and more.

Eco club or green club is a voluntary group which promotes the participation of students in learning about, and improving their environment. Eco club is a means by which students and youth can organize themselves to learn more about this issue, and also take action to improve their immediate environment.

It is a wonderful opportunity to create awareness, build attitudes and help students take up activities in real world, in a way in which the constraints of the classroom and curriculum will not allow.

An Eco club can thus help to extend boundaries and scope of the formal educational system encouraging creativity, and improving students for constructive action.

Eco club activities can help the teacher to meet the objectives of environmental education, which are to create awareness and sensitivity among individuals and social groups to the total environment and its allied problems. Impart knowledge to help individuals and social groups gain a variety of experiences in and acquire a basic understanding of, the environment and its associated problems.

Eco Clubs play an important role in creating environmental awareness amongst the future generation.

AIMS AND OBJECTIVES

- To inculcate the environment friendly habits in children.
 - To develop scientific temperament among children.
-
- Motivate the students to keep their surroundings green and clean by undertaking plantation of trees.
 - Promote ethos of conservation of water by optimizing the use of water.
 - Motivate students to imbibe habits and life style for minimum waste generation, source separation of waste and disposing the waste to the nearest storage point.
 - To develop skills of observation, experimentation, survey, recording, analysis, reasoning needed for conserving environment through activities
 - Organize seminars, debates, lectures and popular talks on environmental issues in the school to motivate the students to keep their surroundings green and clean.
 - Promote ethos of conservation of water by optimizing the use of water and cleaning of water body in the adjacent area.
 - Educate students to create awareness amongst public and sanitary workers, so as to stop the indiscriminate burning of waste which causes respiratory diseases.
 - Sensitize the students to minimize the use of plastic bags, not to throw them in public places as they choke drains and sewers, cause water logging and provide breeding ground for mosquitoes.

- Organize tree plantation programs, awareness programs such as quiz, essay, painting competitions, rallies, nukkad natak etc. regarding various environmental issues and educate children about re-use of waste material & preparation of products out of waste
- Campaign against use of loud speakers, motivate students not to use crackers and fire works, recycling of glass and metals, use of unnecessary horns.
- Field visit to environmentally important sites including polluted and degraded sites, wildlife parks, etc.
- Organize rallies, marches, human chains and street theatre at public places with a view to spread environmental awareness.

- Mobilize action against environmentally unsound practices like garbage disposal in unauthorized places, unsafe disposal of hospital wastes etc.
- Beautify selected road side area with plants and flowers and put campaign boards to generate awareness.
- Any other innovative programme on environmental issues.

INAUGURATION OF ECO CLUB AT G.N.P.S. ON 14TH NOVEMBER 2022

ECO club in Guru Nanak Public School was formally established on 14th day of November, 2022 on the occasion of Children's Day under the guidance of our hon'ble Chairman Sh. Nasib Singh and Respected Principal Ms. Jitender Kaur.

The event started with inauguration of the Eco Club by our worthy chairman sir by planting a sapling. Principal ma'am, Vice Principal, Teachers, student members and the parents of the students of class VIII and others graced the occasion.

Principal Ms. Jitender Kaur addressed the gathering and spoke on the need for Sustainable development. She also mentioned that the Eco Club must work towards its mission and achieve its objectives. She briefly listed the activities that will be undertaken by the club.

All the student members of the club were given badges by Principal & Vice principal ma'am and made them aware about their roles and responsibilities as a member of the club.

All the student members of the club pledged for working unconditionally for the welfare of our mother Earth and promised to work towards the existing quality of the environment.

Vice Principal Ms. Anjana Sethi proposed the vote of thanks and expressed her gratitude to the guests and participants for their presence and contribution in the event.

ECO PLEDGE

I promise to work towards improving the existing quality of environment. I will work towards preventing pollution and preserving and conserving water and other resources, reduce waste and commit to recovery and recycling as opposed to disposal wherever feasible.

I realize that I am responsible and affected by each and every action that effects the environment in and around my school campus.

I take this pledge today, i.e. 14th November 2022 in order to stop and eventually the accelerating degradation of our planet's natural environment and to help build a future in which all of us can live in harmony with nature.

Signature Campaign

A signature campaign was organized in the school campus on the day of inauguration ceremony where all the parents, students and staff members signed an agreement to be a good citizen and support us all in our responsibilities and duties towards the environment and appreciated this step taken by the school authorities.

CONTRIBUTIONS

Many people from school and visitors have voluntarily contributed to make eco club a great success. On 9th December 2022 Sh. Yashudeep Singh presently serving as D.F.O. Nalagarh, announced his contribution of 20 medicinal plants to the eco club.

All the student members of the eco club have contributed by bringing all waste material like plastic bottles, clothes etc. and made the best out of waste for the club.

All the teacher members have also contributed to the club in the form of arrangement of materials or in the form of ideas, time and manpower.

TESTIMONIALS

Eco Club designing was my favorite activity in the school. I enjoyed this very much. There were many tasks assigned to us such as coloring the stones, plantation, bottle cutting etc. This helped us to understand that we can work better when we work as a team, any impossible task can be made possible. These type of activities has helped us to boost our level of creativity and refresh our minds from education beyond the classroom teaching.

Eco club is one of the remarkable activities of our school. It has motivated us to participate in environment related activities and projects. I feel proud being a part of this club where I learnt teamwork, craft, skill of creative thinking and inventing new things out of waste material. Through this club I would appeal this to each and every citizen of this nation to minimize waste and use eco-friendly resources.

Establishment of eco club is a smart move by our school. I feel privileged to be a part of this club. The creativity and zeal that all my classmates have displayed in the designing of the club is exemplary. Through this club I would spread the message of sustainable management of the natural resources. Being able to serve through this club would be a lifelong achievement.

Sonam

VIII STANDARD

Our school has recently inaugurated the eco club in which all the students participated with full enthusiasm. It has motivated us to keep our surroundings green and clean by undertaking plantation drives, waste segregation and many more. Being a member of this club I feel confident to take actions that will contribute towards the conservation of resources. Working together made me realize that together we can achieve more.

Eco Club in the schools are now no more an extracurricular activity but a necessity and a priority subject in the global curriculum. The motto of this club is to make the young minds aware about the air, water, soil and noise pollutions and how to save the environment for a better tomorrow. The club empowers students to participate and take up meaningful environmental activities and projects like Earth Day celebration, tree Plantation drive, poster-designing, Say No to Plastic campaign, cleanliness drive, morning assembly talks, etc. The aim remains to spread awareness and promote sound and healthy environmental behavior.

Eco club in the school, will empower students to participate in different activities related to the environment. While designing the club students performed various activities which aims to conserve the nature such as painting spare tires, preparing wind chimes and many craft activities. A group of students planted various saplings which will nourish our environment in forth coming years. Our students experienced and learnt many constructive ideas which will help them to explore in the coming future. Moreover, teamwork of the students will strengthen the bond among them. Overall, my whole experience along with my students was pleasurable and fruitful.
